Overview of the Year 2025-2026

What To Do When Your Child Is Ill

At Bee Montessori Niagara (BMN), we are committed to prioritizing the needs of the child over all else. This includes fulfilling our duty and obligation to protect our children from illness.

Throughout the day, our staff members consistently observe the children for any changes in mood, behaviour or physical appearance that may indicate illness or discomfort. If a staff member suspects that a child may be unwell, the Site Supervisor will assess the situation; he/she may contact the child's parent/guardian as a courtesy (and continue closely monitoring the child closely) or may ask for the child to be picked up (in the case of fever, diarrhea, vomiting etc.).

Please Note: Our school policies are set in alignment with Public Health policies and guidelines.

Illnesses and When the Child Can Return To School

Illness	When Child Is Able to Remain at School	When Child Can Return to School
Fever	If child has fever of 37.9 degrees Celsius OR 100.2 degrees Fahrenheit	Once <u>fever free for 24 hours</u> <u>**WITHOUT MEDICATION**</u>
Diarrhea	If a child has 2 or more bouts in one day	24 hours after the LAST bout
Vomiting	If the child has 1 bout of vomiting in a day	24 hours after the LAST bout
Common Cold		Once <u>fever free for 24 hours</u> <u>**WITHOUT MEDICATION**</u> AND other symptoms have been improving for 24 hours AND they have not developed new symptoms.
Flu		Should not attend until <u>5 days after</u> the start of the symptoms OR until <u>fever free for 24 hours</u> <u>**WITHOUT MEDICATION**</u>

*****For a more detailed and comprehensive list of illnesses, please refer to the "Illness" portion of our Parent/Guardian Handbook*****

Exposure to Communicable Diseases

When a child has been exposed to a communicable disease in the School, the following protocol will be followed:

1. The Site Supervisor will inform Public Health and follow the necessary protocol.
2. Staff, parents and guardians will be notified of the exposure.
3. Staff, parents and guardians will closely monitor the children who were exposed to the illness for any potential signs and symptoms.
